Meeting Notes:

- Discussed various research papers read about empirical studies on city data
- Discussed limitations of what can be answered in our analysis, we need to focus on finding discrepancies
- More than just analysis, potentially create some sort of infrastructure for this project so our client and his team could continue the work that we start
- Will start looking at Revere 311 Calls for preliminary analysis
- Will also start to map addresses to census tracts
- Deciding proper workflow on GitHub, and other productivity management tools for the project
